

Batch Updates to WISCAT

This is a list of libraries showing their most recent update to the WISCAT union catalog. In a "batch replacement" the library's existing WISCAT holdings are deleted and replaced with the full data exported from the local catalog. In a "batch update" records and holdings for new acquisitions are added to existing WISCAT holdings for the library. Batch replacements are done on a schedule agreed upon with each library or system (usually once or twice a year). Batch updates can be submitted at any time. Data is generally loaded to WISCAT within several weeks of receiving it. For questions, please contact Beth Palmquist at (608)224-6166 or by email at beth.palmquist@dpi.wi.gov
